How the Program Works

Purchase any of the heaters or heat pumps listed on the chart (on back), and multiply the number of products purchased by the Raypak dollar amount shown for each selected product. Sub total each line item and add up your total Raypak dollars earned at the bottom of the form. You must earn a minimum of \$150 dollars to qualify for the program. Bonus Bucks are earned when your base dollar amount exceeds \$501.

- 0-\$149** = \$0 - Does *not* qualify, must have a minimum of \$150 Raypak bucks.
- \$150-\$500** = The \$ amount earned in Raypak bucks.
- \$501-\$999** = The \$ amount earned multiplied by 1.25. That's a 25% increase in the value of your bucks! **Bonus Bucks!**
- \$1000- up** = The \$ amount earned multiplied by 1.65. That's a 65% increase in the value of your bucks! **Bonus Bucks!**

Don't worry, calculating Raypak bucks has never been easier, we can even supply you with an excel spread sheet that will perform all the calculations for you automatically. Just ask your Raypak salesman or give us a call. Payments will be in the form of a credit to the requestor's account at an authorized Raypak distributor.

Program Guidelines and Rules

Requirements

1. Requests must be accompanied by copies of distributor invoices.
2. Invoices must clearly show your name (or company name) as the customer, the invoice number and date, a description of the product purchased, and the quantity shipped.

5. **Raypak Bucks are credited on a per submittal basis; i.e., each request is treated individually as a stand-alone redemption. If your first submittal qualifies for the top Bonus Buck level (over \$1000), additional submissions (within the calendar year) will be eligible for the same Bonus Buck level.**
6. Raypak Bucks will be paid in the form of a credit through an authorized Raypak distributor of the customer's choice, in the customer's name, after all requirements have been met.
7. Eligible heater brands include Raypak and Rheem.
8. **Internet dealers are not eligible for the Raypak Bucks program.**
